SEASON READINESS

TITAN 2.0® - Pack house & Exporters

What to do...

For all eAddendum & eCertification enquiries contact the Operations Systems Support Team:

OperationsSystemsSupport@ppecb.com

Link to TITAN 2.0® User Manuals: <https://ppecb.com/document-category/titan-2-0/training-manuals/product-inspection/>

INSPECTION

Duplicate SSCC (pallet ID) Validation: Validation is checking that duplicate SSCC's (pallet ID's) can not be used for 1st Inspection (202) across different Consignments notes

Delete Functionality: Ensure that your Software Vendor can post a delete message to the Titan server

Validating FBO Food Safety Certificate Expiry date:

- Once the Certificate have reached its expired date the FBO (PUC/PHC) will be blocked
- Upload new Certificate or Audit report (expire date 3 months from audit date)

Re-Inspections functionality: Re-Inspection available on the TITAN 2.0[®] system

Verification of Pack Codes: Ensure that your pack codes are registered with the PPECB

CHANGES: ELECTRONIC EXPORT CERTIFICATION

Create a query end point for Exporters and C&Fs (Clearing and Forwarding Agents)

- This allows Exporters and C&Fs to query Inspected data for eAddendum submissions

Allow Exporters and C&Fs to send Name & Address of Shipper in eAddendum

- If Name and Address of Shipper is not sent in the submission TITAN 2.0[®] system will generate this information as per the PPECB Master data and how it is registered with DALRRD

Allow Exporters and C&Fs to send the Pallet weight instead of carton weight

- If the Pallet weight is not provided and only the Carton weight is provided the TITAN 2.0[®] system will still do the calculation to generate the Pallet weight

ROADMAP 2023/2024

TITAN 2.0[®] DRAFT ROADMAP

New	TITAN 2.0 [®] DRAFT ROADMAP													
	Qtr 4		Qtr 1			Qtr 2			Qtr 3			Q4		
	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar
WORKSTREAM														
PRODUCT INSPECTION	Reinspection		Error messages updates			Validations around count/size field			Special Market list for Mangoes to European Union					
	Increase field length on count/size field on Addendum		Remove the rule that Pack Code need to be linked to Products on TITAN			Synonyms and Alternative market indicators			Adding other Unit Of Measure so we can be able to inspect Minor					
									Minor Products Inspections					
									Master Data API					
														Application for an Export certificate instead of an Addendum
